

Are you an estate agent?

No, we don't act as an estate agent in any capacity. We exist solely to empower you with the tools to create a professional property listing for yourself so that you can market your property without the help of an estate agent.

Other than getting your property listed on leading property websites, we don't undertake any other services that could be construed as an activity undertaken by an estate agent. This enables us to operate as a property advertiser and not an estate agent, meaning we do not have to be a registered estate agent, therefore helping us to keep our costs to an absolute minimum, meaning in turn that we can offer our advertising at such low prices.
